

HUMANITARIAN UPDATE TIMOR-LESTE

REPORTING PERIOD FROM 2 TO 15 AUGUST

The Humanitarian Update (HU) aims at providing a periodic analysis of current humanitarian issues, facts and policy developments in Timor-Leste with primary attention given to internally displaced people (IDPs). The HU is based on voluntary information inputs from UN Agencies, Funds and Programmes, NGO members of the Humanitarian Coordination Committee and other partners. It analyses information from a variety of sector coordination meetings involving Timorese authorities. The HU is coordinated and issued by the OCHA/UNMIT Integrated Humanitarian Coordination Team (IHCT), on a fortnightly basis. Contributions and comments can be sent to the OCHA/UNMIT IHCT in Dili, Focal Points: medhurst@un.org (mobile: +670 736 55 78) and hadin@un.org (mobile +670 731 16 43).

OF NOTE

*Movement out of Airport IDP Camp
Photo: Martine Perret - UNMIT*

- **Camp Movements:** Movement commenced out of Airport IDP Camp on 6 August, and out of Seminario Minor Balide on 14 August. See page 3 for further details.

- **Rice Donation:** During a ceremony on 7 August, His Excellency the Ambassador of Japan formally handed over a first instalment of a donation of 1,860 tonnes of rice from the People of Japan to the Government of Timor-Leste. The rice donation will be channelled through the World Food Programme (WFP) and will support their School Feeding Programme.

- **The United Nations Development Assistance Framework (UNDAF):** The UNDAF for 2009 – 2013 was signed by the Government of Timor-Leste and the UNMIT in Dili on 8 August. The programmes, which total approximately US\$ 314 million, aim to provide basic social services, to provide schools, health-care and security for the people of Timor-Leste and prioritises programmes that will contribute towards building state institutions such as the courts, Government ministries and local administration.

- **On 19 August,** the UN Security Council will discuss the UN Secretary-General Report on the United Nations Integrated Mission in Timor-Leste, as well as the general situation in the country. The UN Secretary-General Report can be found at <http://daccessdds.un.org/doc/UNDOC/GEN/N08/432/24/PDF/N0843224.pdf?OpenElement>

Updates Included in this Issue:

- Humanitarian Assistance
- Recovery Process
- Human Rights
- Agency News
- Security Update
- Maps showing areas of origin of IDPs moving out of camps

HUMANITARIAN ASSISTANCE UPDATE

FOOD AID/SECURITY

- **Food Security:** Reports from WFP field staff indicate that the overall food security situation especially with regard to the availability of food is cause for concern. Additionally, the price of non-subsidised rice remains high (between 85 cents- US \$ 1 per kilo). In Oecussi, there was no subsidised or non-subsidised rice available in the market; local rice was available but sold for US \$ 1.60 per kilo.
- **Country-Wide Assessment:** Following the food security fact finding mission to Quelicai sub-district, Baucau (undertaken by the Ministry of Agriculture, the Food and Agriculture Organisation (FAO), UNMIT Human Rights and Transitional Justice Unit and WFP) and in light of the food availability in Timor-Leste (highlighted above), a group comprising the Ministry of Agriculture, the Ministry of Social Solidarity (MSS), WFP, IHCT, UNMIT Human Rights and Transitional Justice (HRTJS), CARE, Oxfam, CONCERN, Timor-Leste Red Cross (CVTL) and the International Organization for Migration (IOM) has started the preparatory work for a country-wide assessment exercise to determine the needs in terms of food and related programmes/ interventions. A draft questionnaire and TOR will be soon shared with the Secretary of State for Natural Disasters and Social Assistance at MSS to begin the process.

WATER, SANITATION AND HYGIENE

Due to the fact that a second group named the Water and Sanitation (WatSan) Working Group (WWG) is now meeting on water and sanitation in the Districts, the name of the original WWG has changed to the Emergency WatSan Working Group (EWSWG). The EWSWG group has unanimously agreed to change the meeting to every second week. The next meeting will occur on 20 August and following this the meetings will be every second week (the next one being 3 September).

CAMP DECOMMISSIONING

Aside from the camp decommissioning activities mentioned below, the EWSWG members continue with ongoing activities in the IDP Camps (water trucking, etc).

Camp decommissioning activities are ongoing in the following camps:

- Airport: The majority of IDPs have left the camp and UNICEF is beginning to decommission it.
- Balide Seminario and Hera Port: Decommissioning meetings with IOM and landlords were held.
- Jardim: Plan is in the process of decommissioning the camp.
- Sional and Police Academy: The District Administration Sanitation Department carried out general cleaning in these two camps previously supported by UNICEF and now decommissioned. UNICEF supported this effort by providing cleaning tools.

ADDITIONAL CAMP-SPECIFIC ACTIVITIES

- Arte Moris: Two families remain in this camp. Oxfam completed the rehabilitation work of WatSan facilities.
- Metinaro: Plan held consultations with the IDP community in this camp relating to the formation of WatSan Sub Committees and also repaired five tube wells, cleaned three water tanks and repaired two leaking water tanks.
- Motael Church: Plan repaired a water pump and pumped out the excess surface drainage
- Farol Primary School: Plan repaired a water tank.
- Turliu (Tibar): The United Nations Children's Fund (UNICEF) has supported the completion of temporary showers and latrine facilities.
- IDP Return WatSan Workshop: The EWSWG (led by Oxfam) continues to develop an IDP Return WatSan Workshop that is conducted in every camp before it closes. These workshops, noted in previous Humanitarian Updates, have been developed with local partners and planned together to ensure consistency in implementation. The training aims to: 1) reinforce participants' knowledge of environmental health issues and how to keep a safe living environment; 2) explain existing mechanisms existing outside the camp to get support from DNSAS for their water connections, through the distribution of leaflets and other hand-outs and; 3) present various sanitary options adapted to Timor-Leste with necessary maintenance requirements and construction guidelines. During the reporting period, workshops have been conducted in Airport, Balide Seminario and Balide Igreja camps.

SITE LIAISON SUPPORT (SLS), CAMP MANAGEMENT AND COORDINATION

During the reporting period, SLS and camp management agencies have assisted the Government in preparations for the return and reintegration of IDPs from the Airport Camp and from Seminario Minor Balide, as well as the returns themselves. SLS agencies worked closely with the Government and organisations involved in the return and reintegration process to resolve as many problems related to return as possible before the actual movement begins. The Airport camp, as one of the largest and most complex camps in Timor-Leste, required substantial dialogue and mediation prior to its closure. The Government and organisations participating in the return and reintegration process attempted to resolve situations involving occupied houses, reluctance on the part of receiving communities to accept returning IDPs and IDPs fears over returning to communities in which they have not lived for a very long period of time.

Prior to the return and reintegration of IDPs from the Airport Camp, SLS agencies and organisations

working in peace-building programmes worked with the Government towards the return and reintegration of seven camps and Transitional Shelters since the beginning of June.

CHILD PROTECTION

- Farol Primary School, Motael Church, Tasi Tolu, Tibar, Karantina, Becora One and Two and Metinaro IDP camps: Plan is holding consultations with partner child protection focal points, child protection community facilitators and Site Liaison Support agencies to refocus the child related activities in these camps.
- UIR camp: Plan also scheduled child protection orientation with children and child protection volunteers.

RECOVERY PROCESS

UPDATE ON IDP MOVEMENTS OUT OF CAMPS

*Movement out of Airport IDP Camp
Photo: Martine Perret -UNMIT*

- **Airport Camp:** The Airport camp closed from 15 August. All former residents of the camp have received their reintegration or recuperation packages. MSS had issued a press release on 6 August stating that 903 families from Airport camp would be assisted to return home.
- **Seminario Minor Balide Camp:** On 14 August, MSS issued a press release stating that 432 families would be assisted to return home. There are nine families left at Seminario Minor Balide. MSS dialogue teams are working together with IOM to try and resolve the issues of these remaining nine families. It is hoped these cases can be resolved in the coming week, and if not, the families may have the option of Transitional Shelter units.

- **Baucau and Viqueque Districts:** During the week of 11 August, MSS also socialised the amounts that will be paid to the victims of the 2007 violence in Baucau and Viqueque districts. MSS will commence payments to these people later in the month of August.
- **Dom Bosco Camp:** This will be the next camp that MSS will assist to move. More than 50 per cent of the camp residents' houses have been verified. Once the verification process is complete and the results socialised, the reintegration of the camp will commence.
- With the return of the IDPs from Seminario Balide camp a total of more than 5,400 IDP families will have received a recovery package or a reintegration package under the Hamutuk Hari'i Futuru National Recovery Strategy programme.

Please see attached maps which reflect the areas of origin of IDPs from Seminario Balide and Dom Bosco camps.

TRANSITIONAL SHELTER UPDATE

- Water, Sanitation and Hygiene at Transitional Shelters: Triangle is preparing for the works at the additional Transitional Shelter Units at Karantina and is waiting for the results from investigations into increasing the water supply to the site through an additional bore well.
- Information relating to current Transitional Shelter Sites in Timor-Leste after movements from Karantina and Becora Unital can be presented as follows:

Transitional Shelter	Room Occupancy	Number of Individuals	Latrines	Water points
Tibar (NRC)	116 / 123	≤200	50	61
Karantina (built by	35 / 72	222	32	46

GoTL)				
FFDTL (NRC)	98 / 100	497	50	58
Becora I (NRC)	26 / 96	404	47	44
Becora II (NRC)	23 / 60	208	30	36
Hera (NRC)	15 / 53*	N/A	N/A	N/A
Becora Market (NRC)	140/163	960	82	10
Total	453/667 68% occupied shelters units	2,491 IDPs (not including Hera)	-	-

RETURN MONITORING AND RELATED ISSUES

RETURN MONITORING

HCC members agreed on 29 July, to meet in order to strengthen tools/methodologies to monitor post-return/resettlement of IDPs. The first meeting took place on 6 August and provided participants with the opportunity in particular to discuss and make suggestions to current post-return monitoring tools (those used by the Provedor's Office/ UNMIT HRTJS/Jesuit Refugee Service (JRS) and IOM). A follow up meeting on 12 August expanded on this discussion and raised questions about the kind of information that post-return monitoring can produce. The meeting also looked at the utility of post-return monitoring for the Government and development/humanitarian partners in terms of prospective project formation (to address issues that are highlighted by the monitoring). A further meeting will be called when the IOM post-return monitoring tool has been finalised. For any information/comments please contact OCHA/UNMIT IHCT, contact person(s): Philippe Schneider (schneider6@un.org) or Louisa Medhurst (medhurst@un.org)

WATER, SANITATION AND HYGIENE

- Problems with Water Connections: The EWSWG is working alongside with DNSAS monitoring and technical team to respond effectively to requests from IDPs or groups of IDPs and communities from areas of return to repair problems with water connections. A sound monitoring system allows DNSAS to make assessments in various areas and, depending on the situation, build public taps for communities and IDPs, build new connections or fix broken pipes.
- Community Lead Total Sanitation (CLTS) Training: Oxfam will run a CLTS training programme in the last week of August for staff and local partner CPT (local NGO). The training will equip the teams with the skills and understanding to implement a CLTS pilot programme in a community with high IDP returns.

CHILD PROTECTION

Farol Primary School, Motael Church and UIR Camps: Plan conducted child-protection consultations with children, parents and youth regarding support required for reintegration.

HUMAN RIGHTS

- UNMIT HRTJS field visit to Uraho, Ermera District: On 11 August, UNMIT HRTJS conducted a field visit to Uraho, Ermera District, in order to assess the situation for returnees. There was particular concern following the reported burning of two houses in Uraho in July and early August, and an incident on 4 August between an ex-Falintil member and an IDP returnee. This incident is currently under investigation.

During the visit the HRTJS met with the Ermera district UNMIT Police Commander, the Uraho village chief, the Uraho IDP Coordinator and five IDP families. Concerns were raised about the lack of police presence in Uraho. Although the cause of the fire in two houses has not been established, the returnees expressed concern about security and the lack of police presence. However, the returnees have started re-building their houses. Fourteen of the 43 families who returned still live in tents, while a number of other families live with relatives while they are rebuilding. Another issue which was raised was Justice for past crimes was also raised as an issue; there does not appear to have been progress in bringing to justice suspects of house-burnings in 2006, nor older cases of violations from 1999. Resolution of such cases is considered critical to resolving long-term tensions in the area.

- House Burning Trials: On 14 August, the trial continued in the case of the former PNTL Viqueque District Commander and four others allegedly involved in house burnings in Uatolari sub-district in August 2007. One witness was heard and the trial is scheduled to continue on 13 September.

AGENCY UPDATE

Following the Government schedule for camp closures, the Oxfam Emergency team is preparing to reduce their emergency operations.

SECURITY UPDATE

(Source: Joint NGO Security Office)

The overall security situation in Timor Leste has been quiet and generally calm during the reporting period.

30 JULY – 6 AUGUST

- According to United Nations (UN) incident statistics, there were 47 recorded incidents across Timor Leste in the reporting period. This is the same as the last reporting period (47) and above the average (approximately 30). UN Police (UNPol) made 47 arrests.
- 4 August: Fretilin held a press conference in which they stated that those who hand in automatic weapons should not be given amnesty but instead be investigated.

6-15 AUGUST

- According to United Nations (UN) incident statistics, there were 43 recorded incidents across Timor Leste in the reporting period. This is lower than the last reporting period (47) and above the average (approx 30). UN Police (UNPol) made 44 arrests.
- 13 August: F-FDTL announced that they would be withdrawing troops from Ermera and Bobonaro districts, this process is ongoing.
- 14 August: An extension to the weapons collection campaign until the 31 August was approved by the Council of Ministers (it was due to end on the 15th August). The police have received only a few traditional weapons, homemade firearms, Unexploded Ordinance (UXO) and ammunition.

COORDINATION AND POINTS OF CONTACT

Please find below the list of focal points and their contact details for each one of the Sector or Pillar Working Groups in reference to the 2008 Transitional Strategy and Appeal (TSA) and in particular the National Recovery Strategy (*Hamutuk Hari'i Futuru*). For updates / corrections related to the POC list below, please feedback to OCHA/UNMIT IHCT: adelina.lobes@undp.org.
