

HUMANITARIAN UPDATE TIMOR-LESTE

REPORTING PERIOD FROM 27 SEPTEMBER TO 10 OCTOBER

The Humanitarian Update (HU) aims at providing a periodic analysis of current humanitarian issues, facts and policy developments in Timor-Leste with primary attention given to internally displaced people (IDPs). The HU is based on voluntary information inputs from UN Agencies, Funds and Programmes, NGO members of the Humanitarian Coordination Committee and other partners. It analyses information from a variety of sector coordination meetings involving Timorese authorities. The HU is coordinated and issued by the OCHA/UNMIT Integrated Humanitarian Coordination Team (IHCT), on a fortnightly basis. Contributions and comments can be sent to the OCHA/UNMIT IHCT in Dili, Focal Points: medhurst@un.org (mobile: +670 736 55 78) and hadin@un.org (mobile +670 731 16 43).

OF NOTE

- **International Strategy for Disaster Risk Reduction Day:**

8 October marked the International Strategy for Disaster Risk Reduction Day. The International theme for this year was 'Hospital Safety'. In Timor-Leste, the theme was adapted as: 'Reduce the Risks, Protecting Health Facilities and the Community, Save Lives'. According to the World Health Organisation (WHO), "The South-East Asia Region has faced some of the world's worst natural disasters including floods, cyclones, earthquakes, tsunamis and other emergencies. The death toll from disasters in the Region was over 500 000 during 1996-2005, which was 58% of global deaths due to disasters." *Activities in Timor-Leste relating to the Day are highlighted on page 5.*

Left: Movement out of Hera IDP Camp - Photo: IOM

- **Latest IDP movements:**

During the reporting period, movement out of **Hera Port IDP camp** continued and movement out of **Tibar Turleu IDP camp** and **Tibar Ismaik Transitional Shelter Site** commenced. *For further details please see page 3.*

- **Humanitarian Reform Workshop:**

On Wednesday **8 October**, the UN Humanitarian Coordinator, DSRSG Finn Reske-Nielsen, invited Government representatives, national and international NGOs, international organisations, donor representatives, as well as UN Agencies, Programmes and Funds to participate in a one-day workshop on the Humanitarian Reform, which key principles are **better predictability**, **accountability** and **partnership**. *For further details please see page 5.*

HUMANITARIAN ASSISTANCE TO IDPs UPDATE

WATER, SANITATION AND HYGIENE

CAMP DECOMMISSIONING

The Emergency Water and Sanitation and Hygiene Working Group (EWASH-WG) continues to decommission IDP camps as IDPs are facilitated to return by the Ministry of Social Solidarity (MSS). Decommissioning activities have been ongoing in the following camps:

- **Arte Moris:** Oxfam has completed the work on the additional tap, allowing the two families remaining to access water from DNSAS' new line without the need for a water trucking service.

Updates Included in this Issue:

- **Humanitarian Assistance to IDPs**
 - **WatSan and Hygiene**
 - **Youth** *page 2*
 - **Site Liaison Support** *page 2*
 - **Health** *page 2*
 - **Livelihoods** *page 2*
 - **Child Protection** *page 2*
- **IDP Relocation and Resettlement Process**
 - **Update on Movements** *page 3*
 - **Transitional Shelter** *page 3*
 - **Post Return Monitoring** *page 4*
 - **WatSan and Hygiene** *page 4*
 - **Gender** *page 4*
 - **Hamutuk Hari'i Futuru** *page 4*
- **Emergency Preparedness**
 - **Water and Sanitation** *page 5*
 - **Disaster Risk Management** *p.5*
- **Of Broader Interest** *page 6*
- **Security Update** *page 6*
- **Latest maps** *page 9*

- **Hosana:** UNICEF conducted the IDP return Water and Sanitation (Watsan) workshop, in collaboration with OXFAM, CRS and DNSAS in this camp and also in **Cathedral** IDP camp.
- **Hera Port:** Oxfam Australia and District Administration have been cleaning the site for the past two weeks.
- **Balide San Jose and Balide Seminario:** The rehabilitation of WatSan facilities was completed and Oxfam Australia has been organising the cleaning of the site with District Administration for the past two weeks.
- The EWASH-WG group is preparing a letter addressed to the Ministry of Public Works (MoPW), attached to a list of all camps from which IDPs have left, requesting equipment from MoPW to flatten the empty sites.

YOUTH

On 27 September Plan organised a friendly soccer match for young people from Metinaro IDP camp at the Metinaro F-FDTL soccer field in order to promote peace and cooperation. Four soldiers from the neighbouring FFDTL base also attended. Approximately 40 young people were involved in this event, with two female players on each team.

Photo: Plan

SITE LIAISON SUPPORT (SLS) UPDATE

- The Ministry of Social Solidarity (MSS) informed the SLS Working Group that no decision has been taken regarding tent replacement for IDPs remaining in camps beyond the useful life of their current tents. The SLS Working Group will continue to advocate for their replacement.
- Catholic Relief Services (CRS) distributed tarpaulins in Hosana IDP camp

HEALTH

- Plan International, together with partner Health Net, organised two 'Environmental Health Training' sessions in Metinaro IDP camp.
- The Alola Foundation made preparations for a training on family planning and breastfeeding in Metinaro IDP camp, which was held on 10 October.

LIVELIHOODS

Over a two-week period commencing 23 September, the Alola Foundation provided training materials to the Metinaro women's craft groups and school holiday activities for the children. Alola Foundation also trained the women on the sewing of borders for tablecloths, wallets, bags and other items. As usual, the training retained a focus on quality, so that the women can eventually sell the items they produce.

Photo: Plan

CHILD PROTECTION

Plan commenced training with Child Protection Focal Points in **Tibar Ismaek, Becora UNITAL I and II, Karantina and Tasi Tolu Transitional Shelter sites and Motael, Farrol and UIR IDP camps** on children's psychosocial needs, the psychosocial impacts of abuse and other traumatic experiences, and how to identify, report, follow up and support cases. Feedback from participants is very positive. Plan met with two IDP families in relation to child protection issues, and referred the cases to MSS.

IDP RELOCATION AND RESETTLEMENT PROCESS

UPDATE ON IDP MOVEMENTS

With the return of IDPs from Sao Jose, Hera Port and the Tibar camps, more than **7700 IDP families** will have received a recovery or reintegration package under the Hamutuk Hari'i Futuru National Recovery Strategy; **28 IDP camps** have now closed according to MSS. A breakdown of information relating to the latest IDP movements is as follows:

- The return and reintegration of IDPs from **Hera Port IDP camp** has been completed (it commenced on 22 September), with a total of **366 families** assisted. The camp is now closed.

- Movement out of **Tibar Turleu IDP camp** commenced on 3 October. A total of **70 families** were assisted. The camp is now closed

- Movement out of **Tibar Ismaik Transitional Shelter site** commenced on 6 October and was completed on 8 October. A total of **208 families** were assisted.

Movement out of Hera IDP Camp - Photo: IOM

- Movement out of **Tibar Matadouro IDP camp** is expected to commence on 14 October. **27 families** are registered as living in the camp.

- Socialisation of the amount of recovery package each family will receive in **Obrigado Barracks IDP camp** is expected to commence on 13 October. Movement out of the camp is expected to commence around 20 October.

- The verification process has been completed for **Tasi Tolu Transitional Shelter site**. The verification process is ongoing for **Canossa Balide, Igreja Balide, Farol Primary School, Belun and Fokupers IDP camps**.

TRANSITIONAL SHELTER UPDATE

Tibar Transitional Shelter has closed. Thirteen rooms remain available in Transitional Shelter sites at this point (a further 30 would be available at Karantina if water trucking was increased). MSS has requested an assessment of what is needed in order to enable Hera to become fully functional. Additional information about the Transitional Shelter sites is outlined below:

- **Tasi Tolu:** Verification was completed on Friday 10 October, approximately 75% of residents are waiting to reintegrate to their former residence. There are currently no free rooms at this site.

- **Karantina:** Work has finished to partially repaint the Transitional Shelters, with the IDPs providing voluntary labour, The Norwegian Refugee Council (NRC) has provided the equipment and lunch. The lack of water trucking to this site is still a concern, consequently there will be no available rooms until there is a commitment to increase water trucking.

- **Becora UNITAL:** The first Baucau IDP family moved to Becora UNITAL. Due to disputed occupancy, only seven rooms remain available.

- **Becora Market:** MSS approved the move of one family to this site, they were displaced from their roadside market stall. Five rooms remain available.

- **Hera:** NRC is not managing this facility at this point although an assessment to upgrade the amenities (latrines flooded out by last wet season) will be conducted by NRC/Triangle during the week of 13 October at the request of MSS.

- **Tibar Ismaik** (the first Transitional Shelter to close): On Monday 6 and Tuesday 7 October, **215 families** moved from Tibar Ismaik as part of the Government's return and reintegration programme (a nominally registered 1460 people).

CARE staff supported the closure. Trucks were provided by MSS and IOM. NRC monitoring staff accompanied 39 trucks, CARE staff 16, PLAN staff 13, IOM staff seven and MSS staff two; eight were unrecorded and approximately five trucks required a Police escort. IOM provided logistical oversight for the movements and MSS organised the distribution of rice.

Returning families were provided with five handouts including: useful contact numbers; WatSan advice; information on child protection, legal, medical and counseling services; and the contact details for Government Ministries and the NRC representative assigned to Tibar.

POST RETURN MONITORING

- Of the 150 NRC 'rapid return monitoring' forms analysed so far, approximately **70% of families** returned to their previous homes and **17%** to relatives. Approximately **60%** of previous residences were in good condition. MSS Dialogue teams consulted with the pre-identified 'households of concern'. Five families chose to move to the districts, (18 of those living around Tibar are included).
- CARE staff continue to operate in Bairo Pite and provide support to IDPs returning to that community.

WATER, SANITATION AND HYGIENE

Following the last Humanitarian Update, the two communities in Metinaro that will benefit from the Community Led Total Sanitation (CLTS) training (implemented by CPT (Centro Pupuh-ira Timor) with the support of Oxfam) are Borohun and Raikuak. This is in addition to Mauk, Ailele hun and Lenuk hun, communities of high IDP returns.

GENDER

IOM will begin a new project designed to increase support to the Government of Timor-Leste, IDPs and beneficiaries of the return and reintegration component of the Government's Hamutuk Hari'i Futuru National Recovery Strategy. The Project is generously funded by the People and Government of the Czech Republic, and will allow IOM to increase its support to female IDPs and returnees to maximise the sustainability and durability of the return and reintegration programme and address gender-specific challenges related to return and reintegration. IOM will undertake a multi-faceted programme to improve women's access to information and to support systems for returning women who are either victims, or at risk of becoming victims, of gender-based violence; to support activities that improve access to essential services such as education, health and livelihood support for displaced women, those that have left the camps and women in communities receiving returning IDPs; and to support the rehabilitation of community infrastructure in areas to which IDPs have returned and that are considered to be at high risk of renewed conflict or increased community tensions.

HAMUTUK HARI'FUTURU

HAMUTUK HARI'I KONFIANSA

- Strengthening Institutional Structures and Mechanisms for Dialogue Project

Over the past two weeks the **six MSS/UNDP dialogue teams** currently working across Dili have been supporting the return and reintegration of IDPs relocating from the Matadouro, Turleu and Ismaik camps in Tibar as well as undertaking preparatory work for the imminent movement of IDPs from Obrigado Barracks camp

In total the teams have now facilitated over **150 mediations** between families wishing to return and families either opposed to their return or occupying their former homes. About **60%** of these cases have been resolved amicably between the parties with dialogue staff playing a facilitation role, whilst the remainder have required negotiated settlement with the parties formalising their agreement in the form of an accord.

On **4 October** the Cristo Rei dialogue team supported the community of Mota Ulun to facilitate a dialogue meeting which included a cross-section of the local community and participation from IDPs recently returned from Hera Port IDP camp, as well as others yet to return from transitional housing in UNITAL I & II and Igreja Becora camp. The Secretary of State for Social Assistance and Natural Disasters attended along with other MSS representatives and partner organisations.

The two regional teams that will be based in Baucau and Ermera have now begun work. The eight staff involved in the two teams began their contracts on 6 October and will work initially on consultation with local authorities and other organisations active in the peace-building/conflict resolution areas to develop work-plans and clear operational targets in their areas.

As well as Local Government, Church and Security Forces, the teams are expected to link strongly with projects being implemented under the Small Grants Fund established by AusAid and managed by UNDP in collaboration with MSS. These include IDP reintegration projects run by Austcare and CRS in the Eastern districts and with local NGO's including Rekuperasaun Sosial Comunitaria (RENETIL), the Rural Community Development Society (RCDS) and the Liquica sub-commission for Justice and Peace in the Western part of the country.

- Support to the Trust-Building Pillar of the National Recovery Strategy Project

In the last two weeks full proposal documents have been finalised for CRS, Austcare, CARE and Ba Futuru whilst most other organisations are nearing completion.

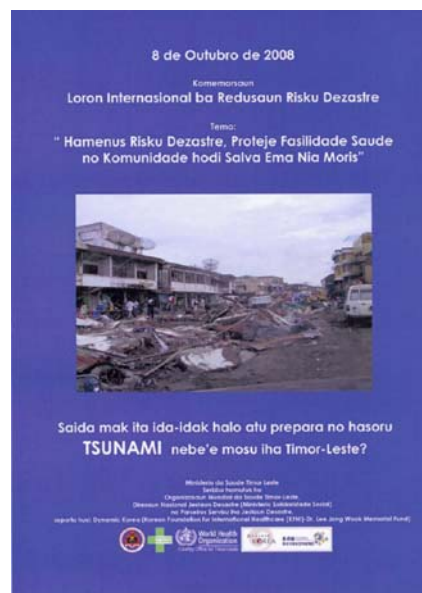

EMERGENCY PREPAREDNESS

WATER AND SANITATION

- UNICEF has been coordinating with DNSAS for the preparation of a Workshop intending to map the WASH sector's emergency preparedness capacity and provide tools to feed into emergency preparedness activities, as suggested by the UNICEF Regional adviser. One person from each EWASH-WG member organisation will participate in the Organizational Committee for this workshop. The workshop will then be facilitated by a UNICEF Adviser and a consultant and will be held during the **first week of November 2008**.
- UNICEF East Asia and Pacific Regional Office conducted training in Indonesia to enhance the capacity of WASH teams on emergency preparedness. Two participants from Timor Leste including one DNAS staff, attended the training held in Jogjakarta, on 22-26 September with financial support provided by UNICEF.

DISASTER RISK MANAGEMENT

- Events to mark the **International Strategy for Disaster Risk Reduction Day on 8 October** were coordinated by the National Directorate of Disaster Management (Ministry of Social Solidarity) with Plan, Concern, CARE, CVTL and WHO. The International theme for this year was, 'Hospital Safety'. In Timor-Leste the theme was adapted as: "Reduce the Risks, Protecting Health Facilities and the Community, Save Lives". The Ministry of Health, WHO and other organisations working in the Health sector formed the Organising Committee for the event. In the health sector, WHO supported the Ministry of Health and the National Directorate of Disaster Management to develop eight themed fliers on how individuals can prepare and respond to the most common disasters in Timor-Leste. These fliers cover topics on: earthquake, floods, droughts, strong winds, fires, tsunami, landslides and conflict/violence. These key messages were adapted from the Manual on Community Emergency Preparedness and Response developed by WHO for the Ministry of Health in consultation with, and agreed by, all partners working in Disaster Management in 2007. In addition, WHO supported the event by printing banners. The support was made available using the funds received by WHO from: Korean Foundation for International HealthCare (KFIH) – Dr Lee Jong-Wook Memorial Fund.

- International organizations held meetings with partners including MSS, the Metinaro Camp Manager and Disaster Risk Reduction (DRR) Group members to finalise the events for the International Strategy for Disaster Reduction (ISDR) Day Celebration. They met with the Ministry of Health to organise the health awareness campaign, and arranged for local theatre group 'Bibi Bulak' and singer Bun Lele to help promote environmental health messages. Plan also coordinated with Trocaire for a DRR video show in Metinaro IDP camp, to coincide with the ISDR Day event.
- Additional events to mark this day included: banners, radio broadcasts (commencing on 8 October) and television broadcasts - commencing 12 October, which include the director of NDMD (organised by Concern).

OF BROADER INTEREST

HUMANITARIAN REFORM WORKSHOP

On **Wednesday 8 October**, the UN Humanitarian Coordinator, DSRSG Finn Reske-Nielsen, invited Government representatives, national and international NGOs, international organisations, donor

representatives, as well as UN Agencies, Programmes and Funds to participate in a one-day workshop on the [Humanitarian Reform](#).

The purpose of the workshop was to 1) raise awareness on general humanitarian reform principles and state of implementation progress; and 2) discuss how to move forward the coordination adjustments to reflect the future priorities of Timor-Leste.

Since 2006, the international humanitarian community has enhanced its efforts to improve the effectiveness of humanitarian responses, in particular through [better predictability](#), [accountability](#) and [partnership](#), as the key principles of the humanitarian reform. The implementation of the humanitarian reform principles has had many faces depending on country specific contexts. In the case of Timor-Leste, it will concentrate on:

- Better predicting, mitigating, preparing and responding to future emergencies (unrest, disasters)
- Ensuring continuity in early recovery/durable solutions for the IDPs
- Creating better coherence/coordination related to development priorities addressing chronic vulnerabilities

This initiative was supported by the OCHA Humanitarian Reform Support Unit, the Cluster Working Group on Early Recovery, and OCHA in the region. Further information and follow-up actions will be included in the next Humanitarian Update.

FOOD AID

As part of the World Food Programme's (WFP) School Feeding Programme, delivery of 16.522 metric tones of rice, beans and vegetable oil was completed on 10 October in Atauro.

CHILD PROTECTION

- The launch of the Child-Friendly Police Station for the Vulnerable Persons Unit (VPU) of the PNTL/ UNPOL took place in Lautem on [10 October](#), supported by the DSRSG and UNICEF. Lautem is the sixth Child Friendly Station in Timor-Leste ((the others are in Ailieu, Ainaro, Dili, Liquica and Manufahi). Child Friendly Police Stations are an initiative spearheaded by UNICEF and the National VPU to strengthen law enforcement for children, including by: equipping police stations in all districts with trained police officers on the Rules of Procedure for Child Abuse and Children at Risk; creating a private child-friendly interview room for investigation procedures and; involving the community in outreach and advocacy about the important role and function of the VPU in keeping children safe in Timor-Leste.

SECURITY UPDATE

(Source: Joint NGO Security Office and UNMIT)

The overall security situation in Timor Leste has remained quiet and generally calm.

24 SEPTEMBER – 1 OCTOBER

- There were 32 recorded incidents across Timor-Leste in the reporting period. This is lower than the last reporting period (34). UN Police (UNPol) made 46 arrests.

2 – 8 OCTOBER

- There were 40 recorded incidents across Timor Leste in the reporting period. This is lower than the last reporting period (32). UN Police (UNPol) made 42 arrests.
- The PNTL conducted checkpoint operations in Dili, mainly at night. The checkpoints were reported to be checking for suspected terrorists (statement by the PNTL Operations Officer) or set up in order to deter PNTL officers from taking their weapons home (according to the PNTL Commander

Designate). The checkpoints were being carried out by a variety of units including traffic police, UIR and Dili Special Task Force.

- A platoon and a half of F-FDTL will deploy to Oecussi in the latter half of the month in order to conduct training exercises and patrols.
- Below are some statistics of incidents that occurred during the reporting period.
