Annex 18: Media Sustainability Index 2008: The Development of Sustainable Independent Media in Timor-Leste⁴⁸

Media

- **Number of active print outlets, radio stations, television stations:** Print: 4 newspapers; Radio: 21 (one public broadcaster and at least 20 community stations); Television stations: 1 (*CIA World Factbook, 2006, USAID Timor-Leste Media Assessment*)
- **Newspaper circulation statistics:** N/A
- **Broadcast ratings:** TVTL is the only broadcaster in the country.
- **News agencies:** None.
- **Annual advertising revenue in media sector:** N/A
- **Internet usage:** 1,200 (2006 estimate, *CIA World Factbook*)

Unsustainable, Anti-Free Press (0-1): Country does not meet or only minimally meets objectives. Government and laws actively hinder free media development, professionalism is low, and media-industry activity is minimal.

Unsustainable Mixed System (1-2): Country minimally meets objectives, with segments of the legal system and government opposed to a free media system. Evident progress in free-press advocacy, increased professionalism, and new media businesses may be too recent to judge sustainability.

Near Sustainability (2-3): Country has progressed in meeting multiple objectives, with legal norms, professionalism, and the business environment supportive of independent media. Advances have survived changes in government and have been codified in law and practice. However, more time may be needed to ensure that change is enduring and that increased professionalism and the media business environment are sustainable.

Sustainable (3-4): Country has media that are considered generally professional, free, and sustainable, or to be approaching these objectives. Systems supporting independent media have survived multiple governments, economic fluctuations, and changes in public opinion or social conventions.

Annex 19: Transparency International: Corruption Perceptions Index⁴⁹

Transparency International published an annual Corruption Perceptions Index (CPI) table that shows a country's ranking and score, the number of surveys used to determine the score, and the confidence range of the scoring.

The rank shows how one country compares to others included in the index. The CPI score indicates the perceived level of public-sector corruption in a country/territory. The following table shows the ranking for Timor-Leste from 2006 (the first year data were available) to 2009.

In other words, the treaty is a means through which international law subjects – mainly national States and international organizations – determine rights and obligations between themselves. The States and international organizations (and other international law subjects) that celebrate a certain treaty are called “Contracting Parties” (or simply “Parties”) of this treaty.

J

JORNAL DA REPÚBLICA

Official newspaper of the Republic of Timor-Leste, which publishes the laws so that they may enter into force. It is published by the National Printing House in two series: Laws, Decree-Laws, decisions by the Constitutional Court and other relevant texts are published in Series I; regulations, public contracts, etc. are published in Series II. As in many other countries, legislative texts enter into force only after being published.

L

LAW

The word law can be used with three different meanings, according to the intended scope. In the broadest sense, law is every legal rule, written or not, and covers the habits and all rules formally produced by the State. In a broad sense, law is the written legal rule, excluding legal habit. *In a strict sense, it means the normative act by excellence, issued from the National Parliament.*

LAW-MAKING

Science that studies the ways of designing and writing normative acts. In colloquial terms, law-making is the art of drafting laws well, in the sense that it consubstantiates a set of rules – law-making rules – the purpose of which is to contribute to a good drafting of laws.

LEGAL PROCEDURES

LEGISLATION

LEGISLATIVE COMPETENCE

LEGISLATIVE POWER

The goal is to draft law rules with general or individual scope that are applied to all society, in view of satisfying the needs of the pressure groups; public administration; society. The legislative power elementary functions include that of overseeing the executive power and voting on budget laws.

N

NATIONAL PARLIAMENT

Assembly of representatives elected by the citizens in democratic regimes, normally holding legislative power.

O

ORGANIC LAW

Law on the organization and operation of the Government and respective Ministries. It covers the general dispositions and sets up the main functions and actuation instruments.

P

PUBLIC ADMINISTRATION

In organic or subjective sense, Public Administration is the set of State bodies, services and agents, as well as the further public legal persons, which ensures the satisfying of various collective needs, such as security, culture, health and the wellbeing of the populations. A person employed by Public Administration is called a civil servant. It can also be defined objectively as the concrete and immediate activity that States develop for ensuring collective interests, and subjectively as the set of legal bodies and persons to which the Law attributes the exercise of the administrative function of the State. Under the operational aspect, Public Administration is the perennial and systematic, legal and technical development of the services belonging to the State, benefiting the whole.

PROMULGATION

Internal legal act by which the President of the Republic attests the existence of a duly ratified law, Decree-Law, treaty, etc., and order its execution within the territory. It is important to highlight the difference, in practical terms, between the effects of ratification and those of promulgation. If a State ratifies a treaty but does not promulgate it (and if its constitutional law requires promulgation), the conventional text is mandatory in the international sphere but not in the internal one. In this case, the State in question may be asked by other Contracting Parts to fulfil some of its conventional obligations, but one of its internal bodies may refuse to do so because of lack of promulgation. The faulty State then incurs in a situation of international accountability.

PROJECT OF LAW

Text presented by the Deputies or Parliamentary Group to the Parliament, so that the latter can pronounce on it.

R**RATIFICATION**

Confirmation, authentication of an act or commitment: *ratify a Treaty*.

REPEAL

Removing validity through a different rule. The repealed rule leaves the system, interrupting its force. The rule ceases to be valid, to belong to the legal ordering, and to have special relevance in dogmatic terms.

REVALIDATION

Reposition in force of a previously revoked law (or legal precept).

S**STATE**

Institution organized politically, socially and legally, occupying a defined territory, normally where the maximum law is a written Constitution, and rules by a Government whose sovereignty is acknowledged both internally and internationally. A sovereign State is characterized by the saying "One government, one people, one territory".

STATE GENERAL BUDGET

Planning instrument that expresses Government Programs monetarily, in order for a financial exercise, discriminating the objectives and goals to be achieved by the Public Administration.

U**UNCONSTITUTIONALITY**

Contrariety of the law or normative act (resolution, decrees) regarding the Constitution. This incompatibility can be formal (lack of observance of the necessary rules for the process of legislative drafting or edition) and / or material (concerning the very content of the law or the normative act, and its conformity with the constitutional principles and rules).
