Statistics prepared by DGSU/UNMIT.

⁴ This section intends to compare the official and observed attendance of the Members of the National Parliament. According to the article 11 of the Rules of Procedure of the National Parliament: “The duties of a Member of Parliament shall be as follows: a) To report punctually to and attend sessions of the Plenary and meetings of the committees he or she serves on”. In addition, article 5 of the National Parliament Rules of Procedure states that. “A Member of Parliament who is to absent himself or herself for more than three consecutive days on substantiated grounds may, through his or her political party, submit a request for an early justification of absence and temporary replacement of office”.

⁵ Number of seats for the represented political parties or coalitions for the 2007-2012 mandate.

⁶ The “*Lista de Presença dos Deputados*” differentiates between “*full attendance*” and “*partial attendance*” of the MPs; for the statistical purposes of this report both full and partial attendance are accounted for as full presence at the Plenary session.

The following table presents the *observed* attendance record of the 65 Members of the National Parliament at the plenary sessions observed by DGSU-UNMIT⁷.

The Human Development Index

Each year since 1990 the Human Development Report has published the Human Development Index (HDI) which was introduced as an alternative to conventional measures of national development, such as level of income and the rate of economic growth. The HDI represents a push for a broader definition of well-being and provides a composite measure of three basic dimensions of human development: *health, education and income*.

Timor-Leste's HDI is 0.502, which gives the country a rank of 120 out of 169 countries with comparable data.

The HDI of East Asia and the Pacific as a region increased from 0.391 in 1980 to 0.650 today, placing Timor-Leste below the regional average. The HDI trends tell an important story both at the national and regional level and highlight the very large gaps in well-being and life chances that continue to divide our interconnected world.

* According to the Press Release of the Secretary of State for the Council of Ministers and Official Spokesperson for the Government of Timor-Leste, Ágio Pereira, released on 10 May 2011, ‘The statement therefore on page 30 of the 2011 the Human Development Report: 2011 Managing Natural Resources for Human Development, Developing the Non-Oil Economy to achieve the MDG’s Report: Table 1 (the table referred to in Jose Teixeira’s ETAN statement) “The table below reviews Timor-Leste progress in each of the HDI indicators, giving values for 2005 and 2010” is inaccurate, misleading and not applicable to Timor-Leste’s human development in 2010’.

Annex 26: [World Bank – Worldwide Governance Indicators 1996-2008](#)⁶⁸Country Data Report for Timor-Leste, 1996-2008⁶⁹Aggregate Indicator: Voice and Accountability⁷⁰Aggregate Indicator: Political Stability and Absence of Violence⁷¹

1

Aggregate Indicator: Government Effectiveness⁷²

⁶⁸ The WGI do not reflect the official views of the World Bank, its Executive Directors, or the countries they represent. The WGI are not used by the World Bank Group to allocate resources. (Source: <http://info.worldbank.org/governance/wgi/index.asp>)

⁶⁹ The Report displays the country's performance for all available years between 1996 and 2008 in six governance dimensions: i) Voice & Accountability, ii) Political Stability and Lack of Violence/Terrorism, iii) Government Effectiveness, iv) Regulatory Quality, v) Rule of Law, and vi) Control of Corruption. (Source: <http://info.worldbank.org/governance/wgi/index.asp>)

⁷⁰ **Voice and Accountability** measures the extent to which country's citizens are able to participate in selecting their government, as well as freedom of expression, freedom of association, and a free media.

⁷¹ **Political Stability and Absence of Violence/Terrorism** measures the perceptions of the likelihood that the government will be destabilized or overthrown by unconstitutional or violent means, including domestic violence and terrorism.

⁷² **Government Effectiveness** measures the quality of public services, the quality of the civil service and the degree of its independence from political pressures, the quality of policy formulation and implementation, and the credibility of the government's commitment to such policies.

Aggregate Indicator: Regulatory Quality⁷³

Aggregate Indicator: Rule of Law⁷⁴

Aggregate Indicator: Control of Corruption⁷⁵

Explanatory Note:

Percentile ranks indicate the percentage of countries worldwide that rate below the selected country. Higher values thus indicate better governance ratings. Percentile ranks have been adjusted to account for changes over time in the set of countries covered by the governance indicators. The dashed lines indicate the statistically-likely range of governance indicator [known as the confidence level]. For instance a percentile rank of 75% with the dashed lines at 60% to 85% has the following interpretation: an estimated 75% of the countries rate worse and an estimated 25% of the countries rate better than the country choice. However, at the 90% confidence level, only 60% of the countries rate worse, while only 15% of the countries rate better.

(Source: <http://info.worldbank.org/governance/wgi/index.asp>)

⁷³ **Regulatory Quality** measures the ability of the government to formulate and implement sound policies and regulations that permit and promote private sector development.

⁷⁴ **Rule of Law** measures the extent to which agents have confidence in and abide by the rules of society, in particular the quality of contract enforcement, the police, and the courts, as well as the likelihood of crime and violence.

⁷⁵ **Control of Corruption** measures the extent to which public power is exercised for private gain, including petty and grand forms of corruption, as well as “capture” of the state by elites and private interests.

⁷⁷ The Global Competitiveness Report is prepared by the World Economic Forum. It assesses the ability of countries to provide high levels of prosperity to their citizens. This in turn depends on how productively a country uses available resources. Therefore, the Global Competitiveness Index measures the set of institutions, policies, and factors that set the sustainable current and medium-term levels of economic prosperity (Source: <http://www.weforum.org/en/initiatives/gcp/Global%20Competitiveness%20Report/index.htm>)

Annex 29: [Revenue Watch Institute – Revenue Watch Index 2010](#)⁷⁸

1. Comprehensive Revenue Transparency (average score 67-100):

countries in this group provide their citizens with substantial amounts of information about revenue from the extractive sector. Governments show strong reporting practices and tend to make available detailed or disaggregated data on the different areas of the extractive sector under their authority.

2. Partial Revenue Transparency (average score 34-66): countries in the middle category of the ranking provide their citizens with information about their revenue from the extractive sector, yet have important transparency gaps in one or more specific categories of the index.

3. Scant Revenue Transparency (average score 0-33): countries in the bottom of the ranking disclose the least amount of information

⁷⁸ The Revenue Watch Index attempts to measure and compare the information governments disclose about the oil, gas and mining industries, including payments to those governments, contracts, regulations and related data.. To measure revenue transparency, the Revenue Watch Index evaluates the availability of information covering seven key areas of natural resource management: (1) Access to resources: the availability of data detailing contracts and licensing terms and procedures, as well as the existing legal and regulatory mechanisms related to the accessibility of information; (2) Generation of revenue: the availability of detailed information published by various government agencies on production and payments, as well as an assessment of its accessibility and frequency; (3) Institutional setting: the rules, roles and responsibilities of the main actors involved in the management of revenue generation, as well as the presence of internal controls and other checks; (4) State-owned companies: the availability of information regarding the governance structures of state-owned entities and the reporting practices related to their activities; (5) Natural resource funds: the rules governing the operation of funds and their reporting practices; (6) Sub-national transfers: the laws that regulate revenue sharing among different levels of government and the disclosure of information about revenue sharing; (7) Extractive Industry Transparency Initiative (EITI): the extent to which member countries have fulfilled EITI criteria (i.e. publication of EITI reports, independent payment audits and reconciliations, and information about payments and revenue from state-owned companies). Annex 28: Media Sustainability Index 2008: The Development of Sustainable Independent Media in Timor-Leste⁷⁹

Media

- **Number of active print outlets, radio stations, television stations:** Print: 4 newspapers; Radio: 21 (one public broadcaster and at least 20 community stations); Television stations: 1 (*CIA World Factbook, 2006, USAID Timor-Leste Media Assessment*)
- **Newspaper circulation statistics:** N/A
- **Broadcast ratings:** TVTL is the only broadcaster in the country.
- **News agencies:** None.
- **Annual advertising revenue in media sector:** N/A
- **Internet usage:** 1,200 (2006 estimate, *CIA World Factbook*)

Unsustainable, Anti-Free Press (0-1):

Country does not meet or only minimally meets objectives. Government and laws actively hinder free media development, professionalism is low, and media-industry activity is minimal.

Unsustainable Mixed System (1-2):

Country minimally meets objectives, with segments of the legal system and government opposed to a free media system. Evident progress in free-press advocacy, increased professionalism, and new media businesses may be too recent to judge sustainability.

Near Sustainability (2-3): Country has progressed in meeting multiple objectives, with legal norms, professionalism, and the business environment supportive of independent media. Advances have survived changes in government and have been codified in law and practice. However, more time may be needed to ensure that change is enduring and that increased professionalism and the media business environment are sustainable.

Sustainable (3-4): Country has media that are considered generally professional, free, and sustainable, or to be approaching these objectives. Systems supporting independent media have survived multiple governments, economic fluctuations, and changes in public opinion or social conventions.

⁷⁹ Selected sections from the 2008 Media Sustainability Index, published by IREX (www.irex.org/msi)

CONCEPTS

FREE-SPEECH INDICATORS:

- > Legal and social protections of free speech exist and are enforced.
- > Licensing of broadcast media is fair, competitive, and apolitical.
- > Market entry and tax structure for media are fair and comparable to other industries.
- > Crimes against journalists or media outlets are prosecuted vigorously, but occurrences of such crimes are rare.
- > State or public media do not receive preferential legal treatment, and law guarantees editorial independence.
- > Libel is a civil law issue; public officials are held to higher standards, and offended parties must prove falsity and malice.
- > Public information is easily accessible; right of access to information is equally enforced for all media and journalists.
- > Media outlets have unrestricted access to information; this is equally enforced for all media and journalists.
- > Entry into the journalism profession is free, and government imposes no licensing, restrictions, or special rights for journalists.

PLURALITY OF NEWS SOURCES INDICATORS:

- > A plurality of affordable public and private news sources (e.g., print, broadcast, Internet) exists.
- > Citizens' access to domestic or international media is not restricted.
- > State or public media reflect the views of the entire political spectrum, are nonpartisan, and serve the public interest.
- > Independent news agencies gather and distribute news for print and broadcast media.
- > Independent broadcast media produce their own news programs.
- > Transparency of media ownership allows consumers to judge objectivity of news; media ownership is not concentrated in a few conglomerates.
- > A broad spectrum of social interests are reflected and represented in the media, including minority-language information sources.

SUPPORTING INSTITUTIONS INDICATORS:

- > Trade associations represent the interests of private media owners and provide member services.
- > Professional associations work to protect journalists' rights.
- > NGOs support free speech and independent media.
- > Quality journalism degree programs that provide substantial practical experience exist.
- > Short-term training and in-service training programs allow journalists to upgrade skills or acquire new skills.
- > Sources of newsprint and printing facilities are in private hands, apolitical, and unrestricted.
- > Channels of media distribution (kiosks, transmitters, Internet) are private, apolitical, and unrestricted.

PROFESSIONAL JOURNALISM INDICATORS:

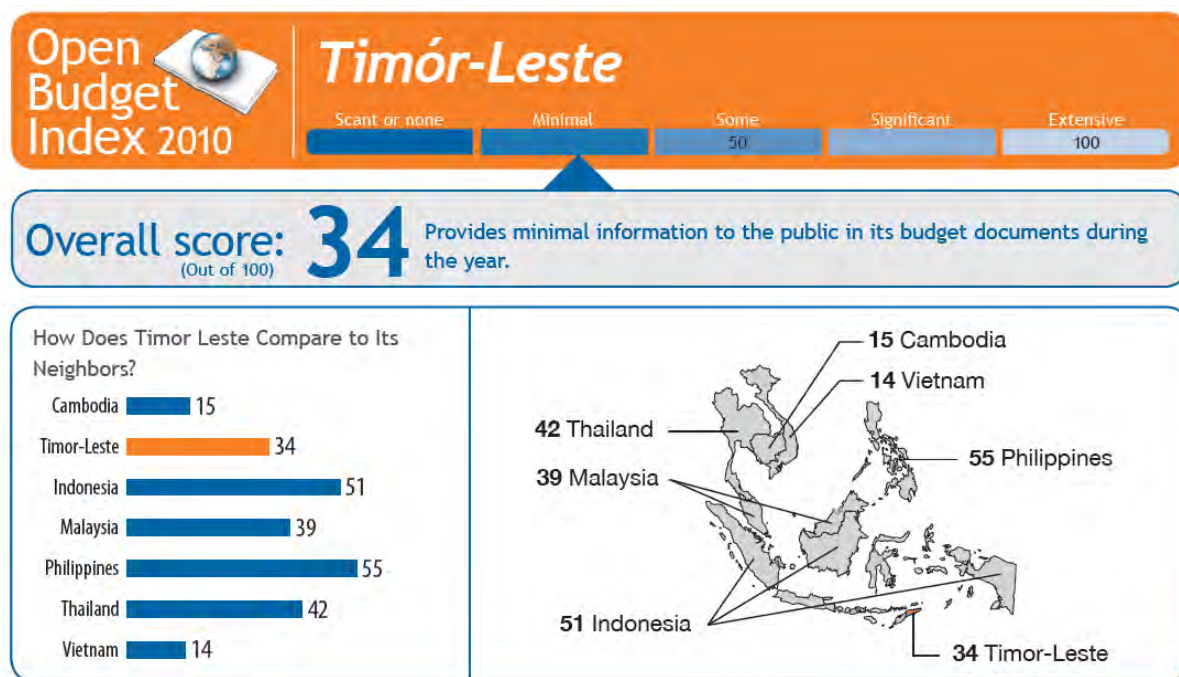

- > Reporting is fair, objective, and well sourced.
- > Journalists follow recognized and accepted ethical standards.
- > Journalists and editors do not practice self-censorship.
- > Journalists cover key events and issues.
- > Pay levels for journalists and other media professionals are sufficiently high to discourage corruption.
- > Entertainment programming does not eclipse news and information programming.
- > Technical facilities and equipment for gathering, producing, and distributing news are modern and efficient.
- > Quality niche reporting and programming exists (investigative, economics/business, local, political).

BUSINESS MANAGEMENT INDICATORS:

- > Media outlets and supporting firms operate as efficient, professional, and profit-generating businesses.
- > Media receive revenue from a multitude of sources.
- > Advertising agencies and related industries support an advertising market.
- > Advertising revenue as a percentage of total revenue is in line with accepted standards at commercial outlets.
- > Independent media do not receive government subsidies.
- > Market research is used to formulate strategic plans, enhance advertising revenue, and tailor products to the needs and interests of hearings.
- > Broadcast ratings and circulation figures are reliably and independently produced.

Annex 30: [International Budget Partnership – Open Budget Index 2010](#)

The International Budget Partnership's Open Budget Survey assesses the availability in each country assessed of eight key budget documents, as well as the comprehensiveness of the data contained in these documents. The Survey also examines the extent of effective oversight provided by legislatures and supreme audit institutions (SAI), as well as the opportunities available to the public to participate in national budget decision-making processes.

Timor-Leste's score is 34 out of 100, which is less than the average score of 42 for the 94 countries surveyed.

Information in Public Budget Documents

Adequacy & Availability of Eight Key Budget Documents

Document	Level of Information Grade*	Publication Status
Pre-Budget Statement	E	Produced, Not Published
Executive's Budget Proposal	C	Published
Enacted Budget	E	Produced, Not Published
Citizens Budget	E	Not Produced
In-Year Reports	C	Published
Mid-Year Review	E	Not Produced
Year-End Report	E	Published
Audit Report	E	Not Produced

* Grades for the comprehensiveness and accessibility of the information provided in each document are calculated from the average scores received on a subset of questions from the Open Budget Survey 2010. An average score between 0-20 (scant information) is graded as E; 21-40 (minimal) is graded as D; 41-60 (some) is graded as C; 61-80 (significant) is graded as B; and 81-100 (extensive) is graded as A.

Public Participation and Institutions of Accountability

Beyond improving the availability and comprehensiveness of key budget documents, there are other ways in which Timor-Leste's budget process can be made more open. These include ensuring the existence of a strong legislature and SAI that provide effective budget oversight, and providing greater opportunities for public engagement in the budget process

Are oversight bodies effective in their budget role?

Oversight Institution	Strength**
Legislature	Weak
SAI	Weak

**** Legislature and SAI strengths are calculated from the average scores received for a subset of questions from the Open Budget Survey 2010. An average score between 0-33 is graded as weak, 34-66 as moderate, and 67-100 as strong.**

(1) According to the Open Budget Survey 2010, budget oversight provided by Timor-Leste's legislature is inadequate because it does not: (2) have sufficient time to discuss and approve a budget; and (3) hold open budget discussions at which the public can testify.

According to the Open Budget Survey 2010, Timor -Leste has not established a SAI and presently state finances are audited by an external accounting firm.

Recommendations

Timor-Leste should:

- publish budget documents that are already being produced — the Pre-Budget Statement • and the Enacted Budget -- on the government's website;
- begin to produce and publish a Citizens Budget and Mid-Year Review;•
- improve the comprehensiveness of the Executive's Budget Proposal;•
- provide opportunities for the public to testify at legislative hearings on the budget; •
- increase the powers of the legislature to provide more comprehensive oversight not only when the budget is being approved but also during the budget execution period;
- establish a supreme audit institution that produces and publishes timely and • comprehensive audit reports.

Annex 31: [Transparency International - Corruption Perceptions Index](#)

Transparency International published an annual Corruption Perceptions Index (CPI) table that shows a country's ranking and score, the number of surveys used to determine the score, and the confidence range of the scoring.

The rank shows how one country compares to others included in the index. The CPI score indicates the perceived level of public-sector corruption in a country/territory. The following table shows the ranking for Timor-Leste from 2006 (the first year data were available) to 2010.

Timor-Leste Rankings:

Year	Ranking (lower is better)	Total Number of Countries Analyzed	CPI Score (higher is better)

Annex 32: Economist Intelligence Unit - Democracy Index 2010⁸⁰

The third edition of the Economist Intelligence Unit's democracy index reflects the situation as of November 2010. The index provides a snapshot of the state of democracy worldwide for 165 independent states and two territories—this covers almost the entire population of the world and the vast majority of the world's independent states (micro states are excluded). Below table lists Democracy Index rank of some selected countries including Timor-Leste in 42nd rank:

Methodology

The Economist Intelligence Unit's index of democracy, on a 0 to 10 scale, is based on the ratings for 60 indicators grouped in five categories: electoral process and pluralism; civil liberties; the functioning of government; political participation; and political culture. Each category has a rating on a 0 to 10 scale, and the overall index of democracy is the simple average of the five category indexes. The category indexes are based on the sum of the indicator scores in the category, converted to a 0 to 10 scale. Adjustments to the category scores are made if countries do not score a 1 in the following critical areas for democracy:

1. whether national elections are free and fair
2. the security of voters
3. the influence of foreign powers on government
4. the capability of the civil service to implement policies.

If the scores for the first three questions are 0 (or 0.5), one point (0.5 point) is deducted from the index in the relevant category (either the electoral process and pluralism or the functioning of government). If the score for 4 is 0, one point is deducted from the functioning of government category index.

Features of the Economist Intelligence Unit index

Public opinion surveys

A crucial, differentiating aspect of our measure is that in addition to experts' assessments we use, where available, public opinion surveys—mainly the World Values Survey. Indicators based on the surveys predominate heavily in the political participation and political culture categories, and a few are used in the civil liberties and functioning of government categories.

In addition to the World Values Survey, other sources that can be leveraged include the Eurobarometer surveys, Gallup polls, Asian Barometer, Latin American Barometer, Afrobarometer and national surveys. In the case of countries for which survey results are missing, survey results for similar countries and expert assessment are used to fill in gaps.

Participation and voter turnout

After increasing for many decades, there has been a trend of decreasing voter turnout in most established democracies since the 1960s. Low turnout may be due to disenchantment, but it can also be a sign of contentment. Many, however, see low turnout as undesirable, and there is much debate over the factors that affect turnout and how to increase it. A high turnout is generally seen as evidence of the legitimacy of the current system. Contrary to widespread belief, there is in fact a close correlation between turnout and overall measures of democracy—that is, developed, consolidated democracies have, with very few exceptions, higherturnout (generally above 70%) than less established democracies.

The legislative and executive branches

The appropriate balance between these is much-disputed in political theory. In our model the clear predominance of the legislature is rated positively as there is a very strong correlation between legislative dominance and measures of overall democracy.

Dispatch no. 1/2007, of 31 August 07 Legal Rules in the Drafting of Normative Acts by the IV Constitutional Government

	Concept	Description
A		
B		-
	BILL	Text presented by the Deputies or Parliamentary Groups to the National Parliament for approval.
C		
	CONSTITUTIONALITY	Conformity with the laws and further acts of the State and of the local power with the Constitution.
	COUNCIL OF MINISTERS	Ministerial reunion presided over by the Prime Minister.
D		
	DECREE-LAW	Diploma issued by the executive body (Government). The text of the respective Decree-Law is presented and approved in Council of Ministers, after which it is sent to the President of the Republic for promulgation.
	DRAFT LAW (OR PROPOSAL OF LAW)	Text presented by the Government to the Parliament, so that the latter can pronounce on it.
E		-
F		-
G		-
	GOVERNMENT	Maximum instance of executive administration of the State. The set of executive leaders of the State is normally called <i>government</i> , <i>cabinet</i> or <i>Council of Ministers</i> .
H		-
I		
	ILLEGALITY	Quality of that which is illegal or contrary to the law.
		Agreement resulting from the convergence of wills of two or more international law subjects, formalized in a written text, with the purpose of producing legal effects in the international plan. In other words, the treaty is a means through which international law subjects – mainly national States and international organizations – determine rights and obligations between themselves. The States and international organizations (and other international law subjects) that celebrate a certain treaty are called “Contracting Parties” (or simply “Parties”) of this treaty.
	INTERNATIONAL TREATY	
J		
	JORNAL DA REPÚBLICA	Official newspaper of the Republic of Timor-Leste, which publishes the

		laws so that they may enter into force. It is published by the National Printing House in two series: Laws, Decree-Laws, decisions by the Constitutional Court and other relevant texts are published in Series I; regulations, public contracts, etc. are published in Series II. As in many other countries, legislative texts enter into force only after being published.
L		
	LAW	The word law can be used with three different meanings, according to the intended scope. In the broadest sense, law is every legal rule, written or not, and covers the habits and all rules formally produced by the State. In a broad sense, law is the written legal rule, excluding legal habit. <i>In a strict sense, it means the normative act by excellence, issued from the National Parliament.</i>
	LAW-MAKING	Science that studies the ways of designing and writing normative acts. In colloquial terms, law-making is the art of drafting laws well, in the sense that it consubstantiates a set of rules – law-making rules – the purpose of which is to contribute to a good drafting of laws.
	LEGAL PROCEDURES	Set of legal requirements for starting a process.
	LEGISLATION	Set of legal precepts regulating a certain matter.
	LEGISLATIVE ACT	Manifestation of the will with strength of law and meant to produce law effects. It is one of the three sovereign powers of the State, responsible for the drafting of laws.
	LEGISLATIVE COMPETENCE	Legal capacity for drafting laws, decree-laws, regulations and decrees.
	LEGISLATIVE POWER	Power to legislate, create and sanction laws. The goal is to draft law rules with general or individual scope that are applied to all society, in view of satisfying the needs of the pressure groups; public administration; society. The legislative power elementary functions include that of overseeing the executive power and voting on budget laws.
M		-
N	NATIONAL PARLIAMENT	Assembly of representatives elected by the citizens in democratic regimes, normally holding legislative power.
O	ORGANIC LAW	Law on the organization and operation of the Government and respective Ministries. It covers the general dispositions and sets up the main functions and actuation instruments.
P	PUBLIC ADMINISTRATION	In organic or subjective sense, Public Administration is the set of State bodies, services and agents, as well as the further public legal persons, which ensures the satisfying of various collective needs, such as security, culture, health and the wellbeing of the populations. A person employed by Public Administration is called a civil servant. It can also be defined objectively as the concrete and immediate activity that States develop for ensuring collective interests, and subjectively as the set of legal bodies and persons to which the Law attributes the exercise of the administrative function of the State. Under the operational aspect, Public Administration is the perennial and systematic, legal and

		technical development of the services belonging to the State, benefiting the whole.
	PROMULGATION	Internal legal act by which the President of the Republic attests the existence of a duly ratified law, Decree-Law, treaty, etc., and order its execution within the territory. It is important to highlight the difference, in practical terms, between the effects of ratification and those of promulgation. If a State ratifies a treaty but does not promulgate it (and if its constitutional law requires promulgation), the conventional text is mandatory in the international sphere but not in the internal one. In this case, the State in question may be asked by other Contracting Parts to fulfill some of its conventional obligations, but one of its internal bodies may refuse to do so because of lack of promulgation. The faulty State then incurs in a situation of international accountability.
	PROJECT OF LAW	Text presented by the Deputies or Parliamentary Group to the Parliament, so that the latter can pronounce on it.
	PROPOSAL OF LAW	Idem to Draft Law
R	RATIFICATION	Confirmation, authentication of an act or commitment: ratify a Treaty.
	REPEAL	Removing validity through a different rule. The repealed rule leaves the system, interrupting its force. The rule ceases to be valid, to belong to the legal ordering, and to have special relevance in dogmatic terms.
	REVALIDATION	Reposition in force of a previously revoked law (or legal precept).
S	STATE	Institution organized politically, socially and legally, occupying a defined territory, normally where the maximum law is a written Constitution, and rules by a Government whose sovereignty is acknowledged both internally and internationally. A sovereign State is characterized by the saying "One government, one people, one territory".
	STATE GENERAL BUDGET	Planning instrument that expresses Government Programs monetarily, in order for a financial exercise, discriminating the objectives and goals to be achieved by the Public Administration.
T		-
U	UNCONSTITUTIONALITY	Contrariety of the law or normative act (resolution, decrees) regarding the Constitution. This incompatibility can be formal (lack of observance of the necessary rules for the process of legislative drafting or edition) and / or material (concerning the very content of the law or the normative act, and its conformity with the constitutional principles and rules).
