<sup>5</sup> This section intends to compare the official and actual attendance of the Members of the National Parliament. According to the article 11 of the Rules of Procedure of the National Parliament: “The duties of a Member of Parliament shall be as follows: a) To report punctually to and attend sessions of the Plenary and meetings of the committees he or she serves on”. In addition, article 5 of the National Parliament Rules of Procedure states that. “A Member of Parliament who is to absent himself or herself for more than three consecutive days on substantiated grounds may, through his or her political party, submit a request for an early justification of absence and temporary replacement of office”.

<sup>6</sup> All information regarding official attendance in this section is based on the “*Lista de Presença dos Deputados*” prepared by the Secretariat of the National Parliament. The attendance data is based on the signature of the Member of the Parliament (MP) who signs the attendance sheet during a plenary session. Therefore, this does not mean that the MP attended the entire session. Statistics and analysis are made by DGSU/UNMIT.

<sup>77</sup> In July the MPs held five Plenary Sessions. After the beginning of the recess period on 15 July 2010, the Standing Committee met twice. The Standing Committee has 27 members; the attendance of MPs at the meetings of the Standing Committee has not been included in the statistical analysis.

<sup>8</sup> **From 15 July to 15 September 2010, the National Parliament is in recess; during the recess period, the Standing Committee (composed of 27 MPs) functions. The attendance of the Standing Committee meetings has not been included in the statistical analysis.**

**State Budget and Expenditure**<sup>40</sup>

**Budget Execution Rate (by Fiscal Year)**<sup>41</sup>

**Sustainable Income**<sup>42</sup>

Source: General State Budget of 2008, 2009 and 2010

<sup>39</sup> The charts presented in this section are based on the General State Budget and on the Budget Execution reports prepared by the National Directorate of Treasury of the Ministry of Finance. Documents are available at <http://www.mof.gov.tl/> [when last accessed 02 August 2010, the 2010 Revised Budget and the Budget Execution report for First Quarter 2010 were not yet available at the MoF website].

<sup>40</sup> For 2008 fiscal year, the original budget was 347.8 million USD. The revised budget included an appropriation of 240 million USD for the Economic Stabilization Fund (ESF) and increased appropriations for all other categories. The final budget reduced the ESF to the amount spent – 53.6 million USD – but left the combined total of the other categories unchanged, resulting in a final FY 2008 budget of 601.5 million USD.

<sup>41</sup> The Budget Execution Rate for the first quarter of 2010 presented in this report was calculated based on the revised budget approved by National Parliament on 8 July 2010; this figure differs from the 28% Budget Execution Rate presented at the Budget Execution report for First Quarter 2010, which was calculated based on the General State Budget for 2010 before the revision; the 2010 General State Budget as approved on 23 December 2009 amounted to US\$659.996.

<sup>42</sup> “Estimated Sustainable Income for a Fiscal Year is the maximum amount that can be appropriated from the Petroleum Fund in that Fiscal Year and leave sufficient resources in the Petroleum Fund for an amount of the equal real value to be appropriated in all later Fiscal Years” [Source: Annex I, Law 09/2005 of 03 August on the Petroleum Fund]

## Annex 17: World Bank – Worldwide Governance Indicators 1996-2008<sup>76</sup>

### Country Data Report for Timor-Leste, 1996-2008<sup>77</sup>

#### Aggregate Indicator: Voice and Accountability<sup>78</sup>

#### Aggregate Indicator: Political Stability and Absence of Violence<sup>79</sup>

1

#### Aggregate Indicator: Government Effectiveness<sup>80</sup>

<sup>76</sup> The WGI do not reflect the official views of the World Bank, its Executive Directors, or the countries they represent. The WGI are not used by the World Bank Group to allocate resources. (Source: <http://info.worldbank.org/governance/wgi/index.asp>)

<sup>77</sup> The Report displays the country's performance for all available years between 1996 and 2008 in six governance dimensions: i) Voice & Accountability, ii) Political Stability and Lack of Violence/Terrorism, iii) Government Effectiveness, iv) Regulatory Quality, v) Rule of Law, and vi) Control of Corruption. (Source: <http://info.worldbank.org/governance/wgi/index.asp>)

<sup>78</sup> **Voice and Accountability** measures the extent to which country's citizens are able to participate in selecting their government, as well as freedom of expression, freedom of association, and a free media.

<sup>79</sup> **Political Stability and Absence of Violence/Terrorism** measures the perceptions of the likelihood that the government will be destabilized or overthrown by unconstitutional or violent means, including domestic violence and terrorism.

<sup>80</sup> **Government Effectiveness** measures the quality of public services, the quality of the civil service and the degree of its independence from political pressures, the quality of policy formulation and implementation, and the credibility of the government's commitment to such policies.

### Aggregate Indicator: Regulatory Quality<sup>81</sup>

### Aggregate Indicator: Rule of Law<sup>82</sup>

### Aggregate Indicator: Control of Corruption<sup>83</sup>

**Explanatory Note:**

*Percentile ranks indicate the percentage of countries worldwide that rate below the selected country. Higher values thus indicate better governance ratings. Percentile ranks have been adjusted to account for changes over time in the set of countries covered by the governance indicators. The dashed lines indicate the statistically-likely range of governance indicator [known as the confidence level]. For instance a percentile rank of 75% with the dashed lines at 60% to 85% has the following interpretation: an estimated 75% of the countries rate worse and an estimated 25% of the countries rate better than the country choice. However, at the 90% confidence level, only 60% of the countries rate worse, while only 15% of the countries rate better.*

*(Source: <http://info.worldbank.org/governance/wgi/index.asp>)*

<sup>81</sup> **Regulatory Quality** measures the ability of the government to formulate and implement sound policies and regulations that permit and promote private sector development.

<sup>82</sup> **Rule of Law** measures the extent to which agents have confidence in and abide by the rules of society, in particular the quality of contract enforcement, the police, and the courts, as well as the likelihood of crime and violence.

<sup>83</sup> **Control of Corruption** measures the extent to which public power is exercised for private gain, including petty and grand forms of corruption, as well as “capture” of the state by elites and private interests.

This in turn depends on how productively a country uses available resources. Therefore, the Global Competitiveness Index measures the set of institutions, policies, and factors that set the sustainable current and medium-term levels of economic prosperity (Source: <http://www.weforum.org/en/initiatives/gcp/Global%20Competitiveness%20Report/index.htm>)

## Annex 19: Media Sustainability Index 2008: The Development of Sustainable Independent Media in Timor-Leste<sup>85</sup>

### Media

- **Number of active print outlets, radio stations, television stations:** Print: 4 newspapers; Radio: 21 (one public broadcaster and at least 20 community stations); Television stations: 1 (*CIA World Factbook, 2006, USAID Timor-Leste Media Assessment*)
- **Newspaper circulation statistics:** N/A
- **Broadcast ratings:** TVTL is the only broadcaster in the country.
- **News agencies:** None.
- **Annual advertising revenue in media sector:** N/A
- **Internet usage:** 1,200 (2006 estimate, *CIA World Factbook*)

**Unsustainable, Anti-Free Press (0-1):** Country does not meet or only minimally meets objectives. Government and laws actively hinder free media development, professionalism is low, and media-industry activity is minimal.

**Unsustainable Mixed System (1-2):** Country minimally meets objectives, with segments of the legal system and government opposed to a free media system. Evident progress in free-press advocacy, increased professionalism, and new media businesses may be too recent to judge sustainability.

**Near Sustainability (2-3):** Country has progressed in meeting multiple objectives, with legal norms, professionalism, and the business environment supportive of independent media. Advances have survived changes in government and have been codified in law and practice. However, more time may be needed to ensure that change is enduring and that increased professionalism and the media business environment are sustainable.

**Sustainable (3-4):** Country has media that are considered generally professional, free, and sustainable, or to be approaching these objectives. Systems supporting independent media have survived multiple governments, economic fluctuations, and changes in public opinion or social conventions.

## Annex 20: Transparency International: Corruption Perceptions Index<sup>86</sup>

Transparency International published an annual Corruption Perceptions Index (CPI) table that shows a country's ranking and score, the number of surveys used to determine the score, and the confidence range of the scoring.

The rank shows how one country compares to others included in the index. The CPI score indicates the perceived level of public-sector corruption in a country/territory. The following table shows the ranking for Timor-Leste from 2006 (the first year data were available) to 2009.

### Timor-Leste Rankings:

Year	Ranking (lower is better)	Total Number of Countries Analyzed	CPI Score (higher is better)
2009	146	180	2.2
2008	145	180	2.2
2007	123	179	2.6
2006	111	163	2.6

The States and international organizations (and other international law subjects) that celebrate a certain treaty are called “Contracting Parties” (or simply “Parties”) of this treaty.

<b>LAW</b>	The word law can be used with three different meanings, according to the intended scope. In the broadest sense, law is every legal rule, written or not, and covers the habits and all rules formally produced by the State. In a broad sense, law is the written legal rule, excluding legal habit. <i>In a strict sense, it means the normative act by excellence, issued from the National Parliament.</i>
<b>LAW-MAKING</b>	Science that studies the ways of designing and writing normative acts. In colloquial terms, law-making is the art of drafting laws well, in the sense that it consubstantiates a set of rules – law-making rules – the purpose of which is to contribute to a good drafting of laws.
<b>LEGAL PROCEDURES</b>	Set of legal requirements for starting a process.
<b>LEGISLATION</b>	Set of legal precepts regulating a certain matter.

<b>LEGISLATIVE COMPETENCE</b>	Legal capacity for drafting laws, decree-laws, regulations and decrees.
<b>LEGISLATIVE POWER</b>	Power to legislate, create and sanction laws. **NATIONAL PARLIAMENT** Assembly of representatives elected by the citizens in democratic regimes, normally holding legislative power.

**O**

**ORGANIC LAW** Law on the organization and operation of the Government and respective Ministries. It covers the general dispositions and sets up the main functions and actuation instruments.

**P**

**PUBLIC ADMINISTRATION** In organic or subjective sense, Public Administration is the set of State bodies, services and agents, as well as the further public legal persons, which ensures the satisfying of various collective needs, such as security, culture, health and the wellbeing of the populations. A person employed by Public Administration is called a civil servant. It can also be defined objectively as the concrete and immediate activity that States develop for ensuring collective interests, and subjectively as the set of legal bodies and persons to which the Law attributes the exercise of the administrative function of the State. Under the operational aspect, Public Administration is the perennial and systematic, legal and

		technical development of the services belonging to the State, benefiting the whole.
	<b>PROMULGATION</b>	Internal legal act by which the President of the Republic attests the existence of a duly ratified law, Decree-Law, treaty, etc., and order its execution within the territory. It is important to highlight the difference, in practical terms, between the effects of ratification and those of promulgation. If a State ratifies a treaty but does not promulgate it (and if its constitutional law requires promulgation), the conventional text is mandatory in the international sphere but not in the internal one. In this case, the State in question may be asked by other Contracting Parts to fulfill some of its conventional obligations, but one of its internal bodies may refuse to do so because of lack of promulgation. The faulty State then incurs in a situation of international accountability.
	<b>PROJECT OF LAW</b>	Text presented by the Deputies or Parliamentary Group to the Parliament, so that the latter can pronounce on it.
	<b>PROPOSAL OF LAW</b>	Idem to Draft Law
<b>R</b>	<b>RATIFICATION</b>	Confirmation, authentication of an act or commitment: ratify a Treaty.
	<b>REPEAL</b>	Removing validity through a different rule. The repealed rule leaves the system, interrupting its force. The rule ceases to be valid, to belong to the legal ordering, and to have special relevance in dogmatic terms.
	<b>REVALIDATION</b>	Reposition in force of a previously revoked law (or legal precept).
<b>S</b>	<b>STATE</b>	Institution organized politically, socially and legally, occupying a defined territory, normally where the maximum law is a written Constitution, and rules by a Government whose sovereignty is acknowledged both internally and internationally. A sovereign State is characterized by the saying "One government, one people, one territory".
	<b>STATE GENERAL BUDGET</b>	Planning instrument that expresses Government Programs monetarily, in order for a financial exercise, discriminating the objectives and goals to be achieved by the Public Administration.
<b>T</b>		-
<b>U</b>	<b>UNCONSTITUTIONALITY</b>	Contrariety of the law or normative act (resolution, decrees) regarding the Constitution. This incompatibility can be formal (lack of observance of the necessary rules for the process of legislative drafting or edition) and / or material (concerning the very content of the law or the normative act, and its conformity with the constitutional principles and rules).
