Sustainable Income³⁹

* Please note the sustainable income figure for 2010 has been corrected; the figure previously presented [US\$811 millions] referred to withdrawn from the Petroleum Fund to finance the State Budget

Source: Report from Independent Auditor for the years of 2008, 2009 and 2010 [available at <http://www.mof.gov.tl/en/par/DPF/default.htm>]

³⁷ For 2008 fiscal year, the original budget was 347.8 million USD. The revised budget included an appropriation of 240 million USD for the Economic Stabilization Fund (ESF) and increased appropriations for all other categories. The final budget reduced the ESF to the amount spent – 53.6 million USD – but left the combined total of the other categories unchanged, resulting in a final FY 2008 budget of 601.5 million USD.

³⁸ The Budget Execution Rate for the second quarter of 2010 presented in this report was calculated based on the revised budget approved by National Parliament on 8 July 2010; this figure differs from the 30% Budget Execution Rate presented at the [Budget Execution report for Second Quarter 2010](#), which was calculated based on the General State Budget for 2010 before the revision; the 2010 General State Budget as approved on 23 December 2009 amounted to US\$659.996.

³⁹ “Estimated Sustainable Income for a Fiscal Year is the maximum amount that can be appropriated from the Petroleum Fund in that Fiscal Year and leave sufficient resources in the Petroleum Fund for an amount of the equal real value to be appropriated in all later Fiscal Years” [Source: Annex I, Law 09/2005 of 03 August on the Petroleum Fund]

The Human Development Index

Each year since 1990 the Human Development Report has published the Human Development Index (HDI) which was introduced as an alternative to conventional measures of national development, such as level of income and the rate of economic growth. The HDI represents a push for a broader definition of well-being and provides a composite measure of three basic dimensions of human development: *health, education and income*.

Timor-Leste's HDI is 0.502, which gives the country a rank of 120 out of 169 countries with comparable data.

The HDI of East Asia and the Pacific as a region increased from 0.391 in 1980 to 0.650 today, placing Timor-Leste below the regional average. The HDI trends tell an important story both at the national and regional level and highlight the very large gaps in well-being and life chances that continue to divide our interconnected world.

Annex 19: World Bank – Worldwide Governance Indicators 1996-2008⁷⁴

Country Data Report for Timor-Leste, 1996-2008⁷⁵

Aggregate Indicator: Voice and Accountability⁷⁶

Aggregate Indicator: Political Stability and Absence of Violence⁷⁷

Aggregate Indicator: Government Effectiveness⁷⁸

⁷⁴ The WGI do not reflect the official views of the World Bank, its Executive Directors, or the countries they represent. The WGI are not used by the World Bank Group to allocate resources. (Source: <http://info.worldbank.org/governance/wgi/index.asp>)

⁷⁵ The Report displays the country's performance for all available years between 1996 and 2008 in six governance dimensions: i) Voice & Accountability, ii) Political Stability and Lack of Violence/Terrorism, iii) Government Effectiveness, iv) Regulatory Quality, v) Rule of Law, and vi) Control of Corruption. (Source: <http://info.worldbank.org/governance/wgi/index.asp>)

⁷⁶ **Voice and Accountability** measures the extent to which country's citizens are able to participate in selecting their government, as well as freedom of expression, freedom of association, and a free media.

⁷⁷ **Political Stability and Absence of Violence/Terrorism** measures the perceptions of the likelihood that the government will be destabilized or overthrown by unconstitutional or violent means, including domestic violence and terrorism.

⁷⁸ **Government Effectiveness** measures the quality of public services, the quality of the civil service and the degree of its independence from political pressures, the quality of policy formulation and implementation, and the credibility of the government's commitment to such policies.

Aggregate Indicator: Regulatory Quality⁷⁹

Aggregate Indicator: Rule of Law⁸⁰

Aggregate Indicator: Control of Corruption⁸¹

Explanatory Note:

Percentile ranks indicate the percentage of countries worldwide that rate below the selected country. Higher values thus indicate better governance ratings. Percentile ranks have been adjusted to account for changes over time in the set of countries covered by the governance indicators. The dashed lines indicate the statistically-likely range of governance indicator [known as the confidence level]. For instance a percentile rank of 75% with the dashed lines at 60% to 85% has the following interpretation: an estimated 75% of the countries rate worse and an estimated 25% of the countries rate better than the country choice. However, at the 90% confidence level, only 60% of the countries rate worse, while only 15% of the countries rate better.

(Source: <http://info.worldbank.org/governance/wgi/index.asp>)

⁷⁹ **Regulatory Quality** measures the ability of the government to formulate and implement sound policies and regulations that permit and promote private sector development.

⁸⁰ **Rule of Law** measures the extent to which agents have confidence in and abide by the rules of society, in particular the quality of contract enforcement, the police, and the courts, as well as the likelihood of crime and violence.

⁸¹ **Control of Corruption** measures the extent to which public power is exercised for private gain, including petty and grand forms of corruption, as well as “capture” of the state by elites and private interests.

This in turn depends on how productively a country uses available resources. Therefore, the Global Competitiveness Index measures the set of institutions, policies, and factors that set the sustainable current and medium-term levels of economic prosperity (Source: <http://www.weforum.org/en/initiatives/gcp/Global%20Competitiveness%20Report/index.htm>)

Annex 22: Revenue Watch Institute – Revenue Watch Index 2010⁸⁴

⁸⁴ The Revenue Watch Index attempts to measure and compare the information governments disclose about the oil, gas and mining industries, including payments to those governments, contracts, regulations and related data.. To measure revenue transparency, the Revenue Watch Index evaluates the availability of information covering seven key areas of natural resource management: (1) Access to resources: the availability of data detailing contracts and licensing terms and procedures, as well as the existing legal and regulatory mechanisms related to the accessibility of information; (2) Generation of revenue: the availability of detailed information published by various government agencies on production and payments, as well as an assessment of its accessibility and frequency; (3) Institutional setting: the rules, roles and responsibilities of the main actors involved in the management of revenue generation, as well as the presence of internal controls and other checks; (4) State-owned companies: the availability of information regarding the governance structures of state-owned entities and the reporting practices related to their activities; (5) Natural resource funds: the rules governing the operation of funds and their reporting practices; (6) Sub-national transfers: the laws that regulate revenue sharing among different levels of government and the disclosure of information about revenue sharing; (7) Extractive Industry Transparency Initiative (EITI): the extent to which member countries have fulfilled EITI criteria (i.e. publication of EITI reports, independent payment audits and reconciliations, and information about payments and revenue from state-owned companies). Annex 23: International Budget Partnership – Open Budget Index 2010

The International Budget Partnership's Open Budget Survey assesses the availability in each country assessed of eight key budget documents, as well as the comprehensiveness of the data contained in these documents. The Survey also examines the extent of effective oversight provided by legislatures and supreme audit institutions (SAI), as well as the opportunities available to the public to participate in national budget decision-making processes.

Timor-Leste's score is 34 out of 100, which is less than the average score of 42 for the 94 countries surveyed.

Information in Public Budget Documents

Adequacy & Availability of Eight Key Budget Documents

| Document | Level of Information Grade* | Publication Status |
|-----------------------------|-----------------------------|-------------------------|
| Pre-Budget Statement | E | Produced, Not Published |
| Executive's Budget Proposal | C | Published |
| Enacted Budget | E | Produced, Not Published |
| Citizens Budget | E | Not Produced |
| In-Year Reports | C | Published |
| Mid-Year Review | E | Not Produced |
| Year-End Report | E | Published |
| Audit Report | E | Not Produced |

* Grades for the comprehensiveness and accessibility of the information provided in each document are calculated from the average scores received on a subset of questions from the Open Budget Survey 2010. An average score between 0-20 (scant information) is graded as E; 21-40 (minimal) is graded as D; 41-60 (some) is graded as C; 61-80 (significant) is graded as B; and 81-100 (extensive) is graded as A.

Public Participation and Institutions of Accountability

Beyond improving the availability and comprehensiveness of key budget documents, there are other ways in which Timor-Leste's budget process can be made more open. These include ensuring the existence of a strong legislature and SAI that provide effective budget oversight, and providing greater opportunities for public engagement in the budget process

Are oversight bodies effective in their budget role?

| Oversight Institution | Strength** |
|-----------------------|------------|
| Legislature | Weak |
| SAI | Weak |

** Legislature and SAI strengths are calculated from the average scores received for a subset of questions from the Open Budget Survey 2010. An average score between 0-33 is graded as weak, 34-66 as moderate, and 67-100 as strong.

(1) According to the Open Budget Survey 2010, budget oversight provided by Timor-Leste's legislature is inadequate because it does not: (2) have sufficient time to discuss and approve a budget; and (3) hold open budget discussions at which the public can testify.

According to the Open Budget Survey 2010, Timor -Leste has not established a SAI and presently state finances are audited by an external accounting firm.

Recommendations

Timor-Leste should:

- publish budget documents that are already being produced — the Pre-Budget Statement • and the Enacted Budget -- on the government's website;
- begin to produce and publish a Citizens Budget and Mid-Year Review;•
- improve the comprehensiveness of the Executive's Budget Proposal;•
- provide opportunities for the public to testify at legislative hearings on the budget; •
- increase the powers of the legislature to provide more comprehensive oversight not only when the budget is being approved but also during the budget execution period; •
- establish a supreme audit institution that produces and publishes timely and • comprehensive audit reports.

Annex 24: Transparency International - Corruption Perceptions Index

Transparency International published an annual Corruption Perceptions Index (CPI) table that shows a country's ranking and score, the number of surveys used to determine the score, and the confidence range of the scoring.

The rank shows how one country compares to others included in the index. The CPI score indicates the perceived level of public-sector corruption in a country/territory. The following table shows the ranking for Timor-Leste from 2006 (the first year data were available) to 2010.

Timor-Leste Rankings:

| Year | Ranking <i>(lower is better)</i> | Total Number of Countries Analyzed | CPI Score <i>(higher is better)</i> |

LEGISLATIVE COMPETENCE

LEGISLATIVE POWER

The goal is to draft law rules with general or individual scope that are applied to all society, in view of satisfying the needs of the pressure groups; public administration; society. The legislative power elementary functions include that of overseeing the executive power and voting on budget laws.

P**PUBLIC ADMINISTRATION**

In organic or subjective sense, Public Administration is the set of State bodies, services and agents, as well as the further public legal persons, which ensures the satisfying of various collective needs, such as security, culture, health and the wellbeing of the populations. A person employed by Public Administration is called a civil servant. It can also be defined objectively as the concrete and immediate activity that States develop for ensuring collective interests, and subjectively as the set of legal bodies and persons to which the Law attributes the exercise of the administrative function of the State. | PROMULGATION | Internal legal act by which the President of the Republic attests the existence of a duly ratified law, Decree-Law, treaty, etc., and order its execution within the territory. It is important to highlight the difference, in practical terms, between the effects of ratification and those of promulgation. If a State ratifies a treaty but does not promulgate it (and if its constitutional law requires promulgation), the conventional text is mandatory in the international sphere but not in the internal one. In this case, the State in question may be asked by other Contracting Parts to fulfill some of its conventional obligations, but one of its internal bodies may refuse to do so because of lack of promulgation. The faulty State then incurs in a situation of international accountability. |
| PROJECT OF LAW | Text presented by the Deputies or Parliamentary Group to the Parliament, so that the latter can pronounce on it. |
| PROPOSAL OF LAW | Idem to Draft Law |
| R | |
| RATIFICATION | Confirmation, authentication of an act or commitment: ratify a Treaty. |
| REPEAL | Removing validity through a different rule. The repealed rule leaves the system, interrupting its force. The rule ceases to be valid, to belong to the legal ordering, and to have special relevance in dogmatic terms. |
| REVALIDATION | Reposition in force of a previously revoked law (or legal precept). |
| S | |
| STATE | Institution organized politically, socially and legally, occupying a defined territory, normally where the maximum law is a written Constitution, and rules by a Government whose sovereignty is acknowledged both internally and internationally. A sovereign State is characterized by the saying "One government, one people, one territory". |
| STATE GENERAL BUDGET | Planning instrument that expresses Government Programs monetarily, in order for a financial exercise, discriminating the objectives and goals to be achieved by the Public Administration. |
| T | - |
| U | - |
| UNCONSTITUTIONALITY | Contrariety of the law or normative act (resolution, decrees) regarding the Constitution. This incompatibility can be formal (lack of observance of the necessary rules for the process of legislative drafting or edition) and / or material (concerning the very content of the law or the normative act, and its conformity with the constitutional principles and rules). |
